<u>Minor</u> REVISION comments	<p>The manuscript titled "Assessment of heavy metal concentration in soil and plant and Evaluation of Bioconcentration factor at LOUMBILA market gardening perimeters, Burkina Faso" estimate the concentration of heavy metals (Cu, Cr, Zn, Pb, Ni, and Cd) in soil and vegetables at the Loumbila market gardening sites and evaluate bioconcentration factor. This work has been systematically completed by the authors to some extent. But as a work in Asian Journal of Physical and Chemical Sciences: General, a improvement should be conducted. Some points were listed below.</p> <p>1. The significant digits in the table should be consistent and the "ND" should be properly annotated. 2.
