PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Explain why the method of extraction was used. E.g. is it the traditional way of defatting or it is based on someone's procedure. Collection and Preparation of Sample	
Minor REVISION comments	In the abstract "essential for non-ruminant digestion, and especially for proper rumen function." You either delete "and especially for proper rumen function" or make it tally with the previous section of the sentence. Non-ruminants have no rumen. Rewrite sentence. "This qualifies it to be a possible alternative ingredient in animal feeds" rewrite sentence and avoid "it" In Table 1, if no detergent was used to produce results in table 1, rewrite the title and delete detergent fractions.	
Optional/General comments	Endeavour to compare your results with related species of African Olive.
