

Review Form 1.6

Journal Name:	Asian Journal of Agricultural and Horticultural Research
Manuscript Number:	Ms_AJAHR_92663
Title of the Manuscript:	Quality assessment of mixed pickle (carrot, pea and ginger) fermented by Lactic Acid Bacteria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajahr.com/index.php/AJAHR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The text should be rechecked carefully for grammar mistakes, this is an example (The objective of this research are to access the)</p> <p>In title</p> <p>fermented by lactic acid bacteria.</p> <p>What is the source of lactic acid bacteria used in this study?</p> <p>How was the fermentation measured?</p> <p>Is the acidity calculated as lactic acid or acetic acid</p> <p>Why is the acidity decreased during storage?</p>	<p>The objective of this research are to access the entitled</p> <ol style="list-style-type: none">1) Physico-chemical characteristics of fresh vegetables of carrot, pea and ginger,2) To standardize the recipe of mixed pickle,3) To analyze the quality parameters of prepared mixed pickle during storage at normal temperature <p>Yes, it is fermented by Lactic Acid Bacteria</p> <p>The lactic acid bacteria are collected from laboratory of Horticulture, NEHU, Tura Campus Meghalaya.</p> <p>The fermentation was measured when the texture was becoming soft</p> <p>It is calculated as Lactic Acid</p> <p>The value of acidity decreased gradually along with storage which might be due to co-polymerization of organic acids with Sugar & Amino acid</p>
Minor REVISION comments	Department of Horticulture Laboratory, is it department or laboratory?	Its laboratory
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
