PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This manuscript is valuable for scientific committee. However, it needs deep revisions by native English speaker. Punctuations as well should be adjusted.</p> <p>The digits should be reduced and write in a scientific manner.</p> <p>$179.1 \pm 0.025 \text{ J/m}^2 \Rightarrow 179.100 \pm 0.025 \text{ J/m}^2$ or for such small error may be eliminated.</p> <p>12.483333333333334 written many time which is insignificant; two digits after comma are enough. 12.48</p> <p>-6.304166666666672 \Rightarrow -6.30</p> <p>The measured UV index in the current work should be compared with the value determined by weather forecast in the same city at the same time and day</p> <p>$P_1 = -2.097403989 * 10^6 x^2 + 21477.54790 x^3 - 1229.781250 x^4 + 37.33541664 x^5 - 0.469583333 x^6 - 2.328580997 * 10^6$</p> <p>Please reduce the digits after comma.</p>	<ul style="list-style-type: none">- The manuscript has been revised as requested and all corrections and changes are presented in the manuscript and highlighted in yellow colour.- Comparing the results with weather forecast may not be possible now due to bureaucracy that has delayed us from submitting the revised version of this work and we have still not obtained the data. We rather suggest in our recommendation that future study should take that into consideration.- The digits have been reduced to 2 or 3 decimal places.- The UV index have been compared WHO index.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
