| Journal Name:            | Journal of Complementary and Alternative Medical Research  |
| Manuscript Number:       | Ms_JOCAMR_91865  |
| Title of the Manuscript: | Evaluation of Vernonia amygdalina Leaves for Gastroprotective Activity on Experimental Models of Gastric Ulcer in Rats |
| Type of the Article      | Original Research Article  |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

### **PART 1:** Review Comments

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)   |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments |   |   |
| <b>Minor</b> REVISION comments      |   |   |
| <b>Optional/General</b> comments    | Please give more information about the chemical entity related to Gastroprotective Activity of V. amygdalina leaves | The scope of this research did not involve the elucidation of the bioactive principle(s) present in the plant material which may be responsible for the observed effect. However, the we (authors) speculate that the possible phytochemical responsible for the observed gastroprotective effect may be flavonoids. Many plants materials which are rich in flavonoids (like V. amygdalina) have shown potential effects in gastroprotection against ulcerogenic agents. We(authors) indicated this in the discussion. |

### **PART 2:**

|  | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
