(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes, the manuscript is af certain value to scientific community Yes Yes Yes Yes - This is an experiment that can make a good scientific contribution. However, the results of this experiment would be better if presented with factorial analysis, so that it can provide an overview of the results of the nutrient treatment on different hedgerows and can also see directly the differences between treatment combinations. We suggest that Tables 1 and 2 can be combined to present the results of the analysis of the combination of fertilization and hedgerows treatments
