

## Review Form 1.7

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_111087
Title of the Manuscript:	Preparation of SnO2 as Electron Transport layer for Organic and Inorganic Perovskite Solar Cells: A Review.
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? 2. Is the title of the article suitable? 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>Third generation solar cells devices use organic-inorganic perovskite material as absorbing layers. The field is very rich but the authors provide very less information. The literature, references, figures, graphs and some methods should explain carefully. After that the paper should be accepted.</p> <p>The topic of paper is interesting, but need more improvement in literature. The review paper should be very concise and comprehensive. The title needs improvement, it is not looking like review but an essay. Please make it precise Yes</p> <p>Structure needs more improvement, a lot of grammar and spellings mistakes It is correct but need improvement is format as well as some figures should be added. A review paper should be very comprehensive, not sufficient references are added. Need to add more references and title should be changed as mini review.</p>	
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	Need improvement	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
