

## Review Form 1.7

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_110558
Title of the Manuscript:	PERFORMANCE EVALUATION OF WIRELESS AD-HOC NETWORK.
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)  2. Is the title of the article suitable? (If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	  No, it's a basic concept about wireless ad hoc network which author experimented and wrote the research paper.  "Performance Evaluation Of Wireless Ad-Hoc Network", It's A Generalized Title No Specification And Keywords Used  Ya but it has no research objective  Ok  Not sure  References are not relevant to the research paper also all paper are old.	  Noted        Revised
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	  NA	
<b>Optional/General</b> comments	  "Three major types of routing have been proposed by researchers in the field, these are proactive, reactive and hybrid." Not apt , language inappropriate. - How can author conclude by deploying only 2 nodes.	  ok

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
