

Review Form 1.7

Journal Name:	Asian Journal of Dental Sciences
Manuscript Number:	Ms_AJDS_110769
Title of the Manuscript:	Importance of color in Dentistry : A Review
Type of the Article	Review Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 1. The article is important to the scientific community, but the article could be expanded with more detail. 2. The title of the article is appropriate, but the lowercase letter error in the title should be corrected. 3. No. 4. Yes. 5. Yes. 6. Yes.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments	 1. The lowercase letter error in the title should be corrected. 2. Keywords in the abstract should be arranged in alphabetical order. 3. INTRODUCTION The way in which we perceive color is influenced by many factors like environmental (physical surrounding) and viewer centric (physiological) which includes lighting conditions, background effect, color blindness, binocular differences, eye fatigue, age and other physiological factors [4]. The style of the marked bibliography does not comply with the journal style. Please change it. 4. <u>Pigment colors</u> To achieve accurate and esthetic shades understanding the primary , secondary and the complementary color is important(fig-1). In the sentence above, fig.1 is more correct instead of fig-1 and correct the entire paper. 5. <u>COLOR CHANGES OF TOOTH RELATED TO AGE-</u> Darker dentin color results from the gradual reduction of enamel thickness caused by wear and tear The progressive loss of enamel thickness due to wear and tear lead to darker dentin color. The supercase letter error in the title should be corrected.	

Review Form 1.7

	<p>6. <u>VISUAL METHOD</u></p> <p>Shade guides should express specific characteristics such as proper distribution in color space, rational arrangement, ease of manipulation, and acceptable accuracy and precision.^[3,5]</p> <p>Please correct the punctuation at the end of the sentence.</p> <p>7. Factors Affecting Clinical Shade Selection:</p> <p>Color matching should be done in a systematic way that ensures accuracy, uniformity, predictable results which are absolutely important in esthetic dentistry</p> <p>Please add punctuation.</p> <p>ii.ENVIRONMENT</p> <p>Make your selection quickly. In case of doubt, trust your initial decision as the eye already tires after approx. 5 - 7 seconds</p> <p>Please add punctuation.</p> <p><u>2.SPECTROPHOTOMETERS</u></p> <p>A spectrophotometer has a tungsten-filament bulb or LED lamp as a white light source to create a light output with the wavelength between 400 and 700 nm.</p> <p>Before using an abbreviation, the meaning of that abbreviation should be mentioned in advance. Therefore, the expansion of LED written in this sentence should be written where it is first mentioned.</p> <p>It's a paper needs some major revisions in publishing.</p>
