Journal Name:	**Asian Journal of Biochemistry, Genetics and Molecular Biology**
Manuscript Number:	**Ms_AJBGMB_110594**
Title of the Manuscript:	**Emerging Treatment Option for Erectile Dysfunction in Male Diabetics**
Type of the Article	**Review Article**

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments **1. Is the manuscript important for scientific community?** (Please write few sentences on this manuscript) **2. Is the title of the article suitable?** (If not please suggest an alternative title) **3. Is the abstract of the article comprehensive?** **4. Are subsections and structure of the manuscript appropriate?** **5. Do you think the manuscript is scientifically correct?** **6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.** **(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)**	**1. Is the manuscript important for scientific community?** • Yes. The manuscript is important for scientific community. **2. Is the title of the article suitable?** • No. The title needs to be changed. Suggestion. ***"Treatment options for Erectile Dysfunction in Diabetics"*** **3. Is the abstract of the article comprehensive?** • The abstract needs corrections. *…"This study is focused on reviewing the potential of the low intensity shockwave therapy in treating erectile dysfunction in diabetic men."* • The aim is not in line with the work, as several treatments are described. **4. Are subsections and structure of the manuscript appropriate?** • Appropriate only if changes to the title and objectives are made. **5. Do you think the manuscript is scientifically correct?** • Yes, but needs some corrections to the text. • Statistical data on diabetes mellitus over 15 years! (2007, 2008). Needs updating. *"…The frequency of ED increases with age, affecting 5.1% of males aged 29 to 30 and more than 50% of those over 70 (Shamloul & Ghanem, 2013)."* • Statistical data must be more recent. *"This review delves into the association between erectile dysfunction and diabetes mellitus, along with the emerging low-intensity extracorporeal shockwave therapy as a management approach."* Does not agree with the text. Other treatments have been described. **6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.** • Some references must be reviewed, especially those with statistical data. • The article must have a maximum of 30 - 35 references.	
Minor REVISION comments **1. Is language/English quality of the article suitable for scholarly communications?**	• Needs review	
Optional/General comments
