

Review Form 1.7

Journal Name:	Asian Research Journal of Arts & Social Sciences
Manuscript Number:	Ms_ARJASS_110434
Title of the Manuscript:	Functioning of Sanya-Kware sub-catchment water users association in water resources management. A Case of Sanya-Kware Sub-catchment, Tanzania
Type of the Article	Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p>	<p>Yes, no doubt the impact of climate change on water resources poses a significant challenge for SKSWUA. In the paper the idea of developing robust strategies to adapt in changing climate patterns, including erratic rainfall and prolonged droughts provides an experimental shape to the work and a progressive affirmation to the field or in scientific areas.</p> <p>Yes, but little changes were done in punctuation, format and a repeated words (Sanya-Kware Sub-Catchment) can be deleted only. New suggested is "Functioning of Sanya-Kware Sub-Catchment Water Users Association in Water Resources Management: A Case Study of Tanzania</p> <p>Yes, The Sanya-Kware Sub-Catchment Water Users Association has made praiseworthy step in heighten water resource management not only in the region but this effort has put a positive approach to the worldwide, where such types of activities are observed. The abstract is an accurate overview of the work done.</p> <p>Yes, by fostering community involvement, initiating infrastructure projects, and investing in capacity building, SKSWUA has positively contributed to the sustainable use of water resources. The researcher has tried to set all the points and sub points, the issues, challenges and finding accordingly.</p> <p>No doubt, the effective policies for implementing impelling climate change adaptation strategies to overcome the challenges of water resource management play a vital role for the association and to overcome current challenges. The association has been instrumental in initiating and overseeing infrastructure development projects, such as the construction of water harvesting structures and irrigation systems. These initiatives have not only improved water availability but also enhanced agricultural productivity, contributing to local economic development in a scientific way. The association continue its pivotal role in ensuring water security and sustainable development in the Sanya-Kware sub-catchment.</p> <p>Yes references are sufficient and there is no need to add additional references.</p>	<p>Noted</p>

Review Form 1.7

5. Do you think the manuscript is scientifically correct?		
6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>		
Minor REVISION comments	Only in punctuation on title page and abbreviations. (suggested I in point no.2 and point no. 1 of language section.)	
1. Is language/English quality of the article suitable for scholarly communications?	Yes, language quality is suitable. The abbreviation can be given within bracket where Acronyms are used as it would help the reader to understand the full sentence, otherwise it will take much time of the readers to search the Abbreviations of given words if reader is not aware. .	
Optional/General comments	Generally and Technically it is sound and will be helpful in the specific area, not only for researchers but policy makers where such types of problems are occurring in water resource management.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
