

Review Form 1.7

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_116050
Title of the Manuscript:	CHEMICAL QUALITY OF CHHANA SPREAD PREPARED FROM COW MILK USING HERBAL COAGULANTS
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>The manuscript is important for the scientific community. It tried to determine the fat. Protein, moisture and other chemical contents of the spread. The manuscript holds significant importance for the scientific community. By exploring the utilization of herbal coagulants in the production process, it addresses the growing interest in natural alternatives to traditional methods.</p> <p>yes</p> <p>Yes, but at the end of the abstract there should be conclusion and recommendation.</p> <p>Yes</p> <p>Somewhat, it needs some clarification and more detail on the discussion part.</p> <p>almost all references are too old ,need amendment</p>	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<p>It is good but still need some amendment</p>	
Optional/General comments	<p>This research sheds light on the potential benefits of herbal coagulants, not only in terms of chemical quality but also in enhancing the nutritional value and safety of the final product. Such findings contribute to the advancement of sustainable and healthier food processing techniques, offering valuable insights for both academia and industry alike.</p>
