(If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	  Just normal    is quite appropriate, the title should be clarified with the test parameters    not yet, the method in the abstract has not been explained    no I don't  the reference does not yet use an updated reference, at least 2019 and above. I think it is easy to find references in the field of food technology because developments in food technology are currently developing rapidly	
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	  enough	
<b>Optional/General</b> comments		

Review Form 1.7
