Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	1. This manuscript needs to be reviewed by researchers considering that the topics raised in this study are less updated where the research was conducted in 2017. 2. In our opinion, the title of this article is appropriate, but the data used in this article, which can be said to be outdated, will not make a significant contribution. 3. A good abstract should present the purpose of the research, the data and analytical tools used and the specific results of the research. 4. The structure sub-section is appropriate but not yet supported by previous research studies 5. This manuscript is scientifically correct 6. We suggest that researchers use updated references We recommend that the references used in this article use citation management in accordance with the provisions specified by the journal.	1. The manuscript critically reviewed to reflect the current status based on the reviewed literature as highlighted yellow on the main document 2. A significant contribution will be made as the issue access to financial services and financial inclusion still valid in Tanzania and elsewhere in the world 3. The purpose of the study is clearly indicated as “The study examined the determinants of access to financial inclusion among adults in Tanzania” 4. The structure sub-sections is now supported by previous research studies as highlighted yellow 5. Ok 6. References were updated as highlighted and use citation management as per journal specification as also highlighted with yellow. According to the journal requirement number system be used in citation, thus Vancouver reference style was used
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	1. Suitable enough	
Optional/General comments
