(If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>Yes, I recommend for acceptance after incorporating few suggestions.</p> <p>Yes</p> <p>The abstract section is too high. Better to revise and include shortly the background, methods, results and conclusion. The keywords are not representative. Revise it so that I can reflect the theme of your research. The introduction section needs to extend a bit. The current wording is not enough to explain the introduction of your research.</p> <p>References are not enough at all. The introduction and discussion needs to be added more relevant references.</p>	<p><b>Author response:</b> Thank you for your observation. I've incorporated in revision.</p>
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	Yes	
<b>Optional/General</b> comments
