<p><b>Optional/General</b> comments</p>	<p>Correct the following items</p> <p>The abstract needs to be revised and expanded to accurately identify the community and sample. The introduction should clearly define the research gap. The theoretical basis should explain consumer willingness and its influencing factors. Include research background and end the introduction with a general question. Present the research model after laying down the theoretical foundations, followed by stating the assumptions. Inadequacies in describing the research method, including population, statistical sample, and variables measurement (questionnaire and its source) need to be addressed. Run the research model in significance and path coefficient modes, then test the hypotheses. Expand on the discussion and conclusions, including practical and research recommendations.</p>
