

Review Form 1.7

Journal Name:	Asian Journal of Research and Reports in Endocrinology
Manuscript Number:	Ms_AJRRE_115823
Title of the Manuscript:	Pancreatic Fat Accumulation: A Link to Pre-diabetes and Diabetes Mellitus
Type of the Article	Original Research Article

## Review Form 1.7

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  <b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  <b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)  <b>3. Is the abstract of the article comprehensive?</b>  <b>4. Are subsections and structure of the manuscript appropriate?</b>  <b>5. Do you think the manuscript is scientifically correct?</b>  <b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>Yes, it seeks to clarify the correlation between a fatty pancreas and metabolic parameters. By exploring the relationship between pancreatic steatosis and pancreatic tissue damage, it aims to gain insights into its role in the development of diabetes mellitus.</p> <p>I would prefer Pancreatic Lipid Deposits: There is a Connection to Pre-diabetes and Diabetes Mellitus?</p> <p><b>Yes</b></p> <p>Yes</p> <p>Yes</p>	<p>Firstly, we appreciate your precious comments and time. We changed our title accordingly and highlighted with yellow. We made our title: "Pancreatic Lipid Deposits: Is There a Connection to Pre-diabetes and Diabetes Mellitus?"</p> <p>Thank you for your all precious effort.</p>
<b>Minor</b> REVISION comments  <b>1. Is language/English quality of the article suitable for scholarly communications?</b>	<p>Yes</p>	<p>Many regards.</p>
<b>Optional/General</b> comments	<p>Some research studies have suggested that weight loss and drug therapy may contribute to the reversal of pancreatic steatosis (References ?)</p> <p>The relationship between dyslipidemia and steatopancreatitis is complex. While some studies have indicated a correlation between pancreatic steatosis and elevated triglyceride levels, our study did not reveal such a relationship(15). The reference should be after levels, not at the end.</p> <p>Some studies have suggested that higher alcohol consumption is associated with increased pancreatic fat content(14) add Criddle DN. The role of fat and alcohol in acute pancreatitis: A dangerous liaison. <a href="https://doi.org/10.1016/j.pan.2015.02.009">https://doi.org/10.1016/j.pan.2015.02.009</a></p> <p>The first table should have a key about the meaning of the symbol <math>\pm</math> standard deviation or other</p>	<p>We added a reference after this sentence. (number:12)</p> <p>We changed the place of this reference accordingly and placed after the word of "levels". The number is changed from 15 to 17 after adding another reference as you advised us.</p> <p>We added this reference as you advised us. (reference number:16)</p> <p>We added a key sentence and put it under the first table. We highlighted it.</p>
