

Review Form 1.7

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_113653
Title of the Manuscript:	Assess the magnitude of variability in advance breeding line of Mungbean with respect to seed yield and component traits.
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)  2. Is the title of the article suitable? (If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	  1. The manuscript is important for the scientific community and concepts of heritability plays a pivotal role in assisting breeders make sound decisions in coming up with new varieties 2. The title is ok 3. Comprehensive abstract 4. Subtitles ok 5. Scientifically correct manuscript 6. References fine and used appropriately in line with concepts observed	  Noted  Noted and effected
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	The English language is ok for communication	ok
<b>Optional/General</b> comments	The techniques used and referenced are from way back years and it may be more helpful to used latest techniques if available	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
