If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The authors intended to bring novel insights to the world with well-designed research objectives.</p> <p>However I have found methodological challenges given in the comments below. Thus suggesting the substantial improvement before should be considered for publication.</p> <p>Methodology: How focus groups were organised during Whatsapp set-up of data collection.</p> <p>Statement of how sample was approached is used as “target individuals who may have experienced suicidal tendencies or had relevant experiences related to the research topic” however, is the findings, evidences of participants’ voices do not appear as this was their own experiences.</p> <p>Data Analysis: What steps or how the thematic analysis was performed, need description and step-wise evidence.</p> <p>Discussion: This study has potential to write the discussion, however it is missing in the manuscript</p> <p>References:</p> <p>In text citations need revision, use APA for citing the relevant literature for instances (Motsomi, K., et al. (2022); Jones, C., et al. (2024) should be revised. DOIs need to be added in the reference list. Moreover some in-text citations are missing in the reference list for instance (Isaac et al. (2019).</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>
