PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>Going through puberty early can be hard and unacceptable for kids emotionally and socially, this has also become a reason for sexual exploitation of girls. In order to study the genetic factors and influence of GNRH in this cohort is often tedious and less resourceful but the observational review of this manuscript is thoughtful and interrogative making it scientifically relevant.</p> <p>NO, This article mainly discusses the features, etiology and impact of precocious puberty, hence can avoid the word EXPLORING.</p> <p>YES,</p> <p>Avoid more sections which encompass precocious puberty in males, as the article specifically entitles for female children.</p> <p>YES</p> <p>TRY TO ADD MORE REFERENCES REGARDING THE RISK FACTORS THAT PROGNOSIS EARLY PUBERTY</p>	<p>Acknowledged.</p> <p>The title has been modified accordingly.</p>
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<p>CHECK SPELLING MISTAKES, ESPECIALLY IN SUBHEADING</p>	
Optional/General comments
