

## Review Form 1.7

Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_119977
Title of the Manuscript:	Examining the Role of Generative AI in Academic Integrity and Learning Outcomes: A Case Study of Selected Universities in the Upper East Region
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)  2. Is the title of the article suitable? (If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	  1. The manuscript is scientific community which concentrated on management course  2. The title of the article is suitable  3. Within the abstract, the state of research question, methodology (when using GAI) and result of research are unclear  4. The subsections and structure of the manuscript are inappropriate based structure of <a href="http://journalajrcos.com">Manuscript Submission (journalajrcos.com)</a>  5. Scientific for community but need to clarify state of research question, methodology and result of research  6. The list of references should be written in one style, please following style of Asian Journal of Research in Computer Science <a href="http://journalajrcos.com">Manuscript Submission (journalajrcos.com)</a>	  1. Thank you for your feedback. We believe our manuscript contributes significantly to the scientific community by concentrating on management courses, specifically focusing on the integration and impact of Generative AI  2. Thank you for confirming the suitability of the title. We are pleased that it effectively represents the content of our research.  3. Thank you for highlighting the need to clarify the research question, methodology, and results in the abstract. We have revised the abstract to clearly state these elements. The updated abstract is highlighted in the manuscript for your review.  4. Thank you for pointing out the need to adhere to the journal's required structure. We have reorganized the manuscript to align with the guidelines provided by the Asian Journal of Research in Computer Science. 5. We appreciate your feedback on clarifying the state of the research question, methodology, and results. The revised abstract and manuscript now clearly state these aspects to improve clarity and comprehension. 6. Thank you for noting the inconsistencies in the reference style. We have reformatted the reference list to adhere to the style guidelines of the Asian Journal of Research in Computer Science.
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	  To improve the quality of the manuscript, please English language should be Revised in terms of grammar and punctuations.	Thank you for your feedback. We have thoroughly revised the manuscript to address grammar and punctuation issues. The language quality has been improved to enhance clarity and readability. The updated sections are highlighted in the manuscript.
<b>Optional/General</b> comments	Overall, revision is required.	Thank you for your feedback. We acknowledge the need for revisions and have made the necessary updates to improve the manuscript.

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
