

**Review Form 3**

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_126311
Title of the Manuscript:	Morphological and molecular studies for the identification of intraspecific crosses in citrus
Type of the Article	Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study contributes to citrus breeding, genetic diversity, and agricultural practices through enhanced identification accuracy, optimized breeding programs, Conservation of Genetic Diversity, resource use efficiency and contribution to citrus research.	This study is useful for citrus breeding and it is mentioned in the 2 <sup>nd</sup> line of the abstarct
Is the title of the article suitable? (If not please suggest an alternative title)	Yes "Integrating Morphological and Molecular Techniques to Identify Intraspecific Crosses in Citrus"	Title modified according to the suggestions
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES	N.A
Are subsections and structure of the manuscript appropriate?	Yes	N.A
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust and technically sound as integrating morphological approaches with molecular approaches will give enough confidence in Enhancing Precision in Hybrid Identification. Thereby the actual diversity present in the citrus for various biotic stresses may be unveiled and ultimately provide greater contribution to citrus research	This was already mentioned in the abstract
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes	N.A
<u>Minor</u> REVISION comments		N.A
Is the language/English quality of the article suitable for scholarly communications?	Yes, the manuscript was drawn with quality english	
<u>Optional/General</u> comments	Maintain uniform font type throughout the manuscript	Corrections marked according to the suggestions

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>	No
