Title of the Manuscript:	Chondroblastic osteosarcoma of the mandible: An uncommon site for osteosarcoma
Type of the Article	Case report

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This is very interesting case report due to rarity of the osteosarcoma location. In my almost 4 decades of work, I have not seen any od mandible. It is great article and the photos used are very good. I would like to commend the authors for the complex surgery they've done. My only consideration is the follow-up of this patient (but this is not an issue in this rare case).	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The authors have done nice work, with short and easy understandable sentences. The subject of this article is rare case of tumour and the problems it's rare location may rise.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	If possible, some more references on this issue are needed.	
Minor REVISION comments	English is not my mother tongue, but the language is correct.	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	I was really shocked of the history if this patient... We all must invest in education of our patients and medical stuff that there is no tumour prevention but early diagnosis and treatment. This could be stated in discussion or conclusion. ... We all must invest in education of our patients and medical stuff that there is no tumour prevention but early diagnosis and treatment. This could be stated in discussion or conclusion.
