

Review Form 3

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_123723
Title of the Manuscript:	Quality Testing And Cost Analysis Of Weaning Foods Prepared From Multigrain Flour And Milk Powder
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article addresses an important aspect of food technology; which is the formulation of complementary foods based on local ingredients. Quite important results have been obtained and discussed. However, the author has not indicated the methods for the physicochemical analysis of the formulated foods.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, Formulation of low-cost weaning foods prepared from multigrain flour and powdered milk	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No, also indicate the main results of the physicochemical analyses of the formulated weaning foods:	
Are subsections and structure of the manuscript appropriate?	make some rearrangements (see the proposals made in the manuscript)	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The results obtained are applicable and allow to solve the problems of malnutrition during or after weaning that affect households by using local foods at lower cost on the market. The results are reproducible and can be adapted in any circumstance	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	50% of the references are less than 10 years old and provide information that is current. This number could be revised upwards	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	OK	
Optional/General comments	include the results of the statistical analyses in the manuscript
