Review Form 3

PART 1: Reviewer Comments:

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The importance of this manuscript for the scientific community is excellent as because onions are very important spices as well as medicinal crop. The authors evaluated the production and preservation efficiency of four varieties of onions in Korhogo, northern Côte d'Ivoire. The manuscript is almost robust and technically sound also. It will be useful and informative for students and researchers.  SEE ATTACHMENT	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the title of the article is suitable and appropriate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensive but it should be arranged as the journal format and some minor revision is need which I mentioned by red coloured.	
Are subsections and structure of the manuscript appropriate?	No, subsections and structure of the manuscript should be arranged according to journal format.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The authors wrote the manuscript according to scientific sequence by following abstract, introduction, materials and methods, results and discussions and conclusion etc. The manuscript is almost robust and technically sound as because they used suitable statistical analysis in materials and methods and also correctly discussed in discussion section with related references. Conclusion supported by the data, discussed inside the manuscript properly.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the references are sufficient and some are recent but it would be better if some more recent references could include.	
Minor REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	It is moderate but authors should try to improve English language quality.	
Optional/General comments	May accept after revision	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
