

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_126414
Title of the Manuscript:	Different Sowing Media and Variety Affecting Physiological Performance of Early Cauliflower and Correlation Studies of Curd Yield with Physiological Parameters
Type of the Article	Original

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Its important from the view of nursery management and as well as early establishment of crop need to be supported by growing media, so this study put light on that gap The way of presentation of data and language used is not much impressing	
Is the title of the article suitable? (If not please suggest an alternative title)	Need to be corrected	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Look the manuscript	
Are subsections and structure of the manuscript appropriate?	okay	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Please before going to accept or rewrite, answer these question which found genuine <ol style="list-style-type: none"> 1. Why growth parameters are not considered, ultimately yield is the best way expressing the influence media and planting material, without considering those parameters, why research was interested in understanding only the intrinsics physiological parameters 2. What analysis was done?? Correlation means spearman or any other correlation 3. Nowhere in the methodology you explained about the growth and yield 4. No single article from last five years in the manuscript 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No, Need improvement, whole manuscript is having minimal references, i.e., 11	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Need to improve	
Optional/General comments	Accept with major revisions and editors can resent for the review
