PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The work is good and gives insight of planktons on the said location.	Okay
Is the title of the article suitable? (If not please suggest an alternative title)	Plankton Abundance, Diversity, and Dominance of the Siddo Coast, Barru Regency, Indonesia	Okay
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is overall good. It would be good if authors explain a few lines about the importance of location.	An addition has been made to the abstract regarding the importance of plankton research at this location.
Are subsections and structure of the manuscript appropriate?	Can authors add how they divided the location in to sub locations?	The distribution of locations is based on the characteristics of different locations, but all locations have the potential to experience pressure from environmental change
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Names of the genera mentioned in figures should be checked. Full names should be added. It would be good if you identify all planktons up to species level.	Maybe in future research, plankton analysis can be carried out at the genus level
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient.	Okay
Minor REVISION comments
