Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like the scope of the study, considering how social media has increasingly become so entrenched in today's life, affecting everyone from toddlers to pensioners. So, to see its relationship of social media's addiction on students' learning motivation and academic performance is relevant for the academic community.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes.	
Are subsections and structure of the manuscript appropriate?	The Introduction too lengthy and I would prefer some of the information be put in another section – Literature Review.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript appears robust enough but I would like to suggest some amendments on: 1. The style of writing when citing other studies to follow the appropriate APA style 2. The 3 questionnaires be included in the appendices 3. Include the ranges of descriptive level (mean scores of the 5-point likert scale) 4. Some sentences are too lengthy, and can be written in 2 or 3 sentences.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References appear to be sufficient, and should be written following the latest correct APA style.
