

Review Form 3

Journal Name:	<a href="#">Asian Journal of Research in Computer Science</a>
Manuscript Number:	Ms_AJRCOS_125798
Title of the Manuscript:	Enhancing Fraud Detection Systems through Advanced Data Engineering Techniques
Type of the Article	Original Research

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Enhancing Fraud Detection Systems through Advanced Data Engineering Techniques is a good research article, all sections are covered properly. The machine learning algorithms used and compared. Data set taken from various sources,	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	comprehensive	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The Data set used to be given elaborately. The execution	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient and recent	
Minor REVISION comments	yes	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	Data Set--- Used to be given elaborately. The execution part must be mentioned in the article.	<ul style="list-style-type: none"><li>Addressed in Section: 3. METHODOLOGY<ul style="list-style-type: none"><li>Page: Section 3.1 Data Collection elaborates on the data sources (e.g., financial transactions, user behavior, and external fraud indicators).</li><li>Page: Section 3.2 Data Processing includes the data cleaning, feature extraction, and integration processes.</li><li>Page: Section 3.3 Model Execution and Training describes the execution of machine learning models, cross-validation techniques, and real-time data processing.</li></ul></li></ul>

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
