Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript explain what the degenerative disease affect the Elderly in the rural and urban area which is very important at the moment, caused by development of several developing countries such as Indonesia, with the increase of Elderly population and the change of population pyramid (stationer type). As a physician, I support to publicate the journal about Elderly, degenerative disease, non-communicable disease and infectious disease in developing country. Because of the multicomorbid disease in Elderly is also found in developing country.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable but I suggest to make very detail title that represent entire contents including the type of study.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The Abstract is comprehensive. Add hypertension and diabetic as a keyword because only two of this disease were analyzed in this study.	
Are subsections and structure of the manuscript appropriate?	Not yet, in the literature review, the author need to explain 3 subsection, that is the Elderly (describe about the definition and characteristic), Degenerative disease (describe about definition and classification) and explain about the correlation between degenerative disease and elderly in the new subsection.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	"The health burden of the elderly in various low- and middle-income countries comes from diseases such as heart disease, stroke, visual impairment, and hearing impairment." "There are quite several types of generative diseases that are related to aging or worsen during the aging process, as well as genetic problems and lifestyle choices" Reviewer'answer : these senteces explain about how the generic and lifestyle are involved in degenerative disease, cardiovascular, cerebrovascular, metabolic syndrome and diabetes are the results of sedentary lifestyle and dieatry habit. These make decreasing the quality of life among Elderly.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	There is one reference is out of date. I suggest you to read some recent study about psychosocial problems in the Elderly. Mau this article help you. "Ibrahim, R. M., Ahmed, M. M., & Younis, N. M. (2024). Association between Psychological Problem and Health old age. <i>Current Clinical and Medical Education</i> , 2(8), 190-198."	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	No. There is some lack of grammar and in terms of substances, There are several repetition of setencens that have the same meanings. You can merge the sentence to reduce ineffectve sentences.	
Optional/General comments	Please add and complete the information in the figures.
