Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article discusses fungal contamination in a local beverage, highlighting health concerns and recommending good hygiene practices in beverage production. However, the authors should be more precise in conducting and presenting their experiments.	Done
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	Okay
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	There is no need to present the dilution for microbial counts that are scientifically reported as log CFU/ml. In addition, the last few sentences of discussion are unnecessary.	Okay
Are subsections and structure of the manuscript appropriate?	No, the materials and methods section is incomplete as it lacks the details about chemicals and equipment used.	Revised
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	- Enumeration of yeast and mold should be conducted by spread plate technique and plates should be incubated at 25 degree Celsius for 5 days. - Microbial counts need to be presented as log CFU/ml.	Done
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	Okay
Minor REVISION comments		Okay
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Figure captions should be more comprehensive.	Done

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
