Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	**Reviewer's comment**	**Author's Feedback** *(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	**This article discusses fungal contamination in a local beverage, highlighting health concerns and recommending good hygiene practices in beverage production. However, the authors should be more precise in conducting and presenting their experiments.**	
Is the title of the article suitable? (If not please suggest an alternative title)	**Yes.**	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	**There is no need to present the dilution for microbial counts that are scientifically reported as log CFU/ml. In addition, the last few sentences of discussion are unnecessary.**	
Are subsections and structure of the manuscript appropriate?	**No, the materials and methods section is incomplete as it lacks the details about chemicals and equipment used.**	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	**- Enumeration of yeast and mold should be conducted by spread plate technique and plates should be incubated at 25 degree Celsius for 5 days. - Microbial counts need to be presented as log CFU/ml.**	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	**Yes.**	
Minor REVISION comments **Is the language/English quality of the article suitable for scholarly communications?**	**Yes**	
Optional/General comments	**Figure captions should be more comprehensive.**	

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
