Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The study is important as it highlights reduction of over dependence on wheat by substituting with lima beans. I like the scientific outcomes and nutritional measurements done on the cookies. However, I dislike the very low number of references used indicating less literature review as well as comparing their study to what has already been done in terms of results and discussion. The statistical analysis also needs improvement as highlighted in the uploaded pdf.

The robust and technically sound assessment of the manuscript can be argued in terms of lack of in-depth literature review or comparing the results to similar studies or cookies made with only wheat, but there is room for improvement with other studies.**
