Title of the Manuscript:	Abdominal Situs inversus with jejuno-ileal atresia and polysplenia: A case report.
Type of the Article	Case report

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer’s comment	Author’s Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This is very rare case as there is many associated anomalies in single patient. The way of management in this patient is important. So I like this menuscrypt.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I think abstract is nicely written. No changes is required.	
Are subsections and structure of the manuscript appropriate?	Operative details should be more elaborated as there was complex atresia of type 4 and type 3b both.	Details of surgery added
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Overall menuscrypt is good but there should be post operative anastomotic photograph also. Is there any transanastomotic feeding tube was placed or not? Any postoperative contrast study was done or not?	No trans-anastomotic feeding tube was placed as there were multiple atresia and placing TAT was not suitable. Child was started on total parenteral nutrition. Post operative contrast study was not done as the baby tolerated feeds without any adverse effect.
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some more references must be added.	Added
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	Good article	

PART 2:
