

Review Form 3

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_123117
Title of the Manuscript:	Basics of Cyclical sequences theory
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The approach to the formulation of a new Numerical sequence and the illustration of Tree partitions of rational numbers and integers are very nice and presented with clarity.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Comprehensive	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This article is significant, because it has connections with the theory of partition occupying a significant place in number theory, also this cyclic sequences occupy a pivotal role in dynamical systems.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	May add two or three recent references.	Noted
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Good	
Optional/General comments	Recommend the paper for publication	

PART 2:
