

Review Form 3

Journal Name:	<a href="#">European Journal of Nutrition &amp; Food Safety</a>
Manuscript Number:	Ms_EJNFS_126312
Title of the Manuscript:	ROLE OF ENZYMES IN FOOD PROCESSING
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article addresses a current topic, the application of enzymes, which has attracted the attention of many researchers. It highlights the most important enzymes in food technology.	yes
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the title matches the content of the article	yes
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is well written and reflects the content.	yes
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure of the manuscript are appropriate and well-organized. They contribute to the clarity and logical flow of the content.	yes
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript demonstrates scientific robustness by providing a comprehensive overview , it contributes significantly to the scientific field by identifying key trends, gaps in knowledge, and potential areas for future research.	yes
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes, the references are recent and sufficient.	yes
<u>Minor</u> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Yes, the language quality is appropriate for scholarly communication. The English is clear, precise, and free of major grammatical or stylistic issues, making the content easy to understand.	yes
<u>Optional/General</u> comments	-How do amylases improve the taste of bread? -For each enzyme mentioned in the manuscript, please add the physicochemical conditions for their optimal activity. -The names of the microorganism species should be written in italics. No plagiarism is suspected No, there are no competing interest issues in this manuscript.	done
