

Review Form 3

Journal Name:	<a href="#">European Journal of Nutrition &amp; Food Safety</a>
Manuscript Number:	Ms_EJNFS_126312
Title of the Manuscript:	ROLE OF ENZYMES IN FOOD PROCESSING
Type of the Article	Review Article

[Review Form 3](#)

**PART 1:** Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript will enriches the scientific community knowledge, since it review specific aspects related the food processing of different types of food. Additionally, it lights the main groups of enzymes that have relevant role for food processing.	Noted and corrected
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. The title is suitable for the manuscript.	Ok
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Minor corrections are needed to be made. For example: 1. The authors need to use text size and font uniformly, and improve the grammer; 2. There are some repeated sentences that could be supressed or rewritten. Eg. "Enzymes can be described as soluble, colloidal, and organic catalysts generated by living cells, yet capable of functioning independently of those cells. [3]." 3. Is important to express clearly the enzyme specificity and correlate it with the kinetic of Michaelis-Menten (Vmax and Km); 4. About the structure of enzymes was expected to be represented chemical models and its function mechanism, etc.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.	
<u>Minor</u> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	The language need to be improved to improve the manuscript quality.	Noted and corrected
<u>Optional/General</u> comments	All previous correlated studies were cited and some improvements were also done.	ok

Review Form 3

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
