	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)  2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)  3. <b>Is the abstract of the article comprehensive?</b>  4. <b>Are subsections and structure of the manuscript appropriate?</b>  5. <b>Do you think the manuscript is scientifically correct?</b>  6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b>  <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	  1. Yes, manuscripts are important for the scientific community because manuscripts help enrich and deepen existing knowledge and manuscripts can train researchers to think critically, comprehensively, and are able to develop new knowledge.  2. Yes suitable  3. Yes  4. Yes  5. Yes  6. Almost all references are not current, only a few are current. Because this article was written in 2023, it is best to use references from the last 5 years, namely from 2019 onwards.  In the article, do not use footnote numbers. This is not a printed book for study guides, but a scientific work that must be proven by references/previous research so that the reader will know that this is an article/scientific work, the researcher's efforts to look for demonstrations and then to find new inspiration for Further research, in addition to previous research, helps research position the research and show the originality of the research.  Reference example : - These rights provide exclusive control over the use, distribution, and commercial exploitation of the intellectual property [2].  It is best to write the name of the researcher  - These rights provide exclusive control over the use, distribution, and commercial exploitation of the intellectual property (Dratler Jr, J., & McJohn, S. M. 2023).√	Done
<b>Minor</b> REVISION comments  1. <b>Is language/English quality of the article suitable for scholarly communications?</b>	  1. Yes	Done
<b>Optional/General</b> comments	When writing scientific papers, the language used must be scientific. This means that the language is in accordance with the applicable rules of writing the language. This is to reduce differences in perception between writers and readers which will cause miscommunication between writers and readers.
