It gives a good review of the agricultural sector, with emphasis on the impacts of Intellectual Property Rights (IPRs). However, it seems to meander into broader "IPRs" beyond agricultural discussions at times. To enhance its focus and coherence, narrowing the discussion to explicitly link every segment to the effects and implications of IPRs on agriculture could strengthen the manuscript's alignment with its title.</p> <p>The title is generally good</p> <p>The abstract is good but need to be re-looked into to improve it.</p> <p>Some areas need to be merged to reduce redundancy</p> <p>I would say that though the manuscript seems good in most instances the review loses track and presents information that are not the focus of "Intellectual Property Rights in agriculture" this must be addressed to improve the focus!</p> <p>Given that this is generally a review paper I see no issue with references</p>	<p>Done</p>
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language is fairly okay</p>	<p>Done</p>
