

Editor's Comment:

Following the evaluation of all documents related to the manuscript, I agree with the Reviewers that the manuscript is acceptable for publishing in the Journal of Experimental Agriculture International. However, minor correction is still needed.

- The title must be corrected per the reviewer's suggestion because the title contains mistakes.
- Keywords should be changed because keywords should not be the same as words already used in a title.
- The legend of Figure 8 must be corrected. The denotations 'M' and 'N' as well as numbers 1-6 must be explained what they mean.

My decision is: Accept after minor revision.
