

Review Form 1.7

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_110598
Title of the Manuscript:	THE EFFECT OF MALARIA ON LIVER FUNCTION IN CHILDREN BELOW 5 YEARS OF AGE
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>Yes! I think it is better if the statistical significance between the control group and non-control group is mentioned.</p> <p>Yes! The effect of malaria disease on liver function in children below 5 years of age.</p> <p>Some amendment is necessary for this part. Because it has to clearly deliver information about the significance, objectives, the methods and design, the findings, conclusion and the recommendation of the paper.</p> <p>Yes!</p> <p>Yes.</p> <p>Yes.</p>	<p>Correction effected in revised manuscript.</p> <p>Agreed. Corrections effected in revised manuscript.</p>
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Definitely yes.	
Optional/General comments	<ul style="list-style-type: none">It is better if the statistical significance between the control group and non-control group is observed and the mean difference analysis is used because you are using the two groups.Writing recommendation is also very much important in scientific papers.	<p>Correction effected in revised manuscript.</p> <p>Recommendations have been included in the revised manuscript.</p>

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
