PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	<p>Yes. The the article is interesting and help us to understand how the rural economy works.</p> <p>Yes. The title is descriptive and exact.</p> <p>Yes. A small correction requed. Crore is not a common used unit. Please write 125 crore (1.25 billion) ...</p> <p>Yes. The manuscript is easy to read.</p> <p>Yes. More arrgumentation is requered.</p> <p>As the text will be completed, probably the more references will be requered for strong argmentation and complete anknowledgement. Please not you references in appropriate places you can mark it as [1], [2], or (author year). Please look at journal requirements to choose the correct form of references. Note, that all references should be mentioned in text.</p>	ok
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<p>Yes.</p>	
Optional/General comments	<p>1. Introduction is quite short. You can add additional information regarding to the scope and motivation of your research, actual challenges in the world rural life or specific challenges for the described region. Describe work effectuated in similar research articles.</p> <p>2. Please add a map of the region, to make more clear the geographical position of the village, its relief and logistic. I suggest 2 wives (you can make inset or put pictures together) One which include Goraphur and Ghaghara river, and other which include mountains and see. This two pictyures will help people with general knowledge in the geography to understend the specific of the described region.</p> <p>3. The result and discussion is should contain some text, not only the tables. That will help the readers to understand the real situation and your opinion beside the row data.</p> <p>3a. What is the age of the people. How many are children and how many are adults?</p> <p>For example: The Bhitaha is a small village with 2160 people (Table 1). The number of male and female is almost the same and no tension becouse of this aspect was detected. Over 80 persont of of the villagers are literate that is lower than national literacity level (literaty rate in India is ...) but higher that literacity rate in rural regions (literacity rate in India rural regions is ...). Males and females have almost the same literacity rate. ...</p> <p><i>This is just an example, I don't know the real situation in the village and India.</i></p>	

Review Form 1.7

	<p>4. Regarding to Table 2, describe the sosial importance of “Scheduled Caste” and “Scheduled Tribe”. The therms are unknown for international readers. How Shediled Caste popultion life differs on other people life?</p> <p>5. Regarding to table 3, What is the median and mean area of the farm. What is the area requested in the specific geographical conditions for sustainable farming?</p> <p>5a) are there any people that works ouside the village.</p> <p>6. Table 4, Describe the seasons in India. What months are correspond, what are the climatic specific of each season.</p> <p>7.
