<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)  2. Is the title of the article suitable? (If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.  (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. yes  2. yes  3. yes  4. yes  5. yes  6. yes	
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	In terms of grammar, read the article and correct the errors	
<b>Optional/General</b> comments	The article is well prepared and all aspects are considered. The results of experimental construction and experimental figures show that a good job has been done.  In my opinion, the article does not have a problem with the technical structure and it is acceptable, Only the following two items should be revised and corrected  1- In terms of grammar, read the article and correct the errors  2- The authors have fully investigated a solar system and presented the results, but it is better to add some new references to the article and compare the obtained parameters with the references and add a comparison section to the article.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
