<p><u>Optional/General</u> comments</p>	<p>Thank you very much for the opportunity to review this manuscript entitled "The Role of Social Media Platforms and Online Initiatives in Addressing and Creating Awareness About Mental Health Problems in the Youth and Adult Population" which was submitted for the International Neuropsychiatric Disease Journal.</p> <p>In general, I think that this may be an interesting paper. However, some major concerns should be clarified:</p> <ul style="list-style-type: none"> - The quality of the study presented in the manuscript is very poor. - The manuscript contents do not have the necessary coherence. - Youth is used in the title, but adolescents are used in the text. Please pay attention to the words. - Use words with less overlap in the abstract. - The opportunities and challenges of cyberspace have not been properly presented. - Which part of the human psyche is damaged by social networks? It has not been properly raised. - The comparison between men and women in social networks has not been properly raised. - In a separate part, please explain the virtual personalities of people. - It is also necessary to explain cyberspace addiction. - It should also be explained about the impact of cyberspace on committing crimes. - Explain adolescence and its role in mental health. - Please explain: What is telehealth? and how telehealth improves mental health. - At the end, you should provide practical suggestions. <p>Other items to address:</p> <ul style="list-style-type: none"> - Each paragraph should contain about 200 words (please check).
