

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_111359
Title of the Manuscript:	Residual effect of organic and inorganic fertilizers on growth indices of chickpea under soybean-chickpea system in vertisol of central India
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 1. Yes, it stands to encourage the common farmers that they cultivate chickpeas using only farm yard manure and still get high outputs. 2. The title may be reduced as there are many words.I suggest"Effects of selected fertilizers (organic and inorganic) on growth indices of chickpeas in soybean-chivkpea system. 3. The abstract is comprehensive. 4. The subsections and structure of manuscript are appropriate. 5. The manuscript is scientifically correct. 6. The references are sufficient but some are obsolete. References on Iron availability- 1983, AGR- 1956& 1967, RGR - 1921, LAI - 1946, etc. More recent references should be used as much work have been carried out on the listed parameters.	Noted
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	1. Yes, but check some typographical errors, e.g. solubilolizer, nitogenase,etc as appearing in the Introduction.	
Optional/General comments	I suggest the manuscript should be accepted. However, there's need to consider the effects of chemicals on nutritional qaulitied viz-a-viz health implications.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
