If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	1. I reviewed the manuscript entitled "Impact of some organic additives on oxidoreductase enzyme for enhancing physical and chemical properties soil and lettuce (Lactuca sativa L.) yield quality", which is very interesting, relevant and contains some novelty. I have no problem reviewing this article as I believe the authors have done a very good literature search resulting in an excellent study that is powerful enough to add to the existing body of knowledge on the subject. More importantly, it will undoubtedly direct further research in this field to improve the physicochemical properties of the soil and increase the yield and quality of lettuce. 2. The title of the article is appropriate. yes 3. The abstract of the article is comprehensive. yes 4. The structure of the manuscript is appropriate and contains the necessary sections. yes 5. The manuscript is scientifically correct. yes 6. The abstract states that the research was conducted in 2019-2020 and 2020-2021. However, the research methodology states that lettuce was grown during the two growing seasons of 2020/2021 and 2021/2022. It is necessary to find out where it is written correctly and correct it. yes	1-Yes. 2- yes. 3-yes. 4-yes. 5- yes 6- yes
