

## Review Form 1.7

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_111146
Title of the Manuscript:	India's G20 Meeting's Stand on Environment and Climate Change Adaptation
Type of the Article	

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments  1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)  2. Is the title of the article suitable? (If not please suggest an alternative title)  3. Is the abstract of the article comprehensive?  4. Are subsections and structure of the manuscript appropriate?  5. Do you think the manuscript is scientifically correct?  6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.	1. (1) The author discusses the trend and combines it with the country's policies and practical measures. However, it is recommended that the main purpose and motivation of the research should be clearly stated to readers, and if external data can be strengthened to support the author's argument. (2) It is recommended that this article's achievement contribution and reading fluency can be revised. 2.The title of the article is suitable so that the article can focus on this topic. 3.The abstract of the article suggests that the research motivation, purpose, methods (tools) and results can be readjusted so that readers can have a clearer understanding of the author's point of view. 4. Chapters and structure are basically acceptable. 5. As mentioned above, from a quantitative research perspective, it is more appropriate to provide data to support the author's views. 6.References are sufficient.	
<b>Minor</b> REVISION comments  1. Is language/English quality of the article suitable for scholarly communications?	1.suitable	
<b>Optional/General</b> comments	Research can state opinions in both qualitative and quantitative ways, and even use case studies to deeply explore the importance of environment and climate change.
