

Review Form 1.7

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_111187
Title of the Manuscript:	A review of silo temperature field studies
Type of the Article	Review Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? 2. Is the title of the article suitable? 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 1. The manuscript is important for scientific community. The subject is worth researching. 2. The title of the article is suitable. 3. The abstract of the article is comprehensive. 4. Subsections and structure of the manuscript are appropriate. 5. I think the manuscript is scientifically correct. 6. As a review article, references are not enough. Additionally, the references do not consist of current sources. A more comprehensive literature study is needed. Additionally, most references include journals from only a few countries. Please add a more global references source.	Ok
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The language quality of the paper is suitable. However, spelling errors in the paper need to be eliminated.	Ok
Optional/General comments
