

Editor's Comment:

I have reviewed the files submitted regarding the Work JERR 109505, titled "Comparative Assessment of Conventional And Locally Sourced Surfactants For Enhancing Steam Flooding Techniques For Heavy Oil Recovery In Niger Delta". I consider that the authors have made, in the second version, acceptable corrections to the original manuscript. However, some spelling errors remain, for example, the title should be corrected to "Comparative Assessment of Conventionally and Locally Sourced Surfactants for Enhancing Steam Flooding Techniques for Heavy Oil Recovery in Niger Delta".

Likewise, the referencing system must be changed to that of numbers in square parentheses.

Once the above is done, the article can be published.
