

Review Form 1.7

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_109779
Title of the Manuscript:	Lipid Profile of Meat Parts of Cow Slaughtered at Obinze Abattoir, Imo State, Nigeria
Type of the Article	Research Article

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes</p> <p>Okay.</p> <p>Yes.</p> <p>Yes, but need some justifications, refer comments in the manuscript.</p> <p>Yes.</p> <p>Okay. But recommended to capture the recent literatures.</p> <ol style="list-style-type: none"> 1. To simplify the statement, tabulate the available literatures and provide the significance of this study which is differed from others perspective. 2. The figures provided are high resolution images. Thanks for providing the clarity and its descriptions. 3. The authors are recommended to provide at least a table of results of lipid profile along with the respective "p value". This will give positive impact to the study. 4. References were listed in the respective sections are not current. Please capture the recent literatures and to be formatted as per the Journal guidelines. 5. Please provide the chromatograph of the lipid profile analyzed by the GC-FID which will give the strong evidence support for the analysis. 6. The reagents used for the study to be mentioned with its manufacturer name, grade of the reagent, purity of the reagent and its concentration in detailed manner in the materials and methods section. 7. Few alignments, spell checks, formatting to be performed. 8. Limitation of this study to be provided in the conclusion part which will lead us to the further research. 9. The concentration of the cholesterol standard to be provided in the preparation section. 	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Enclosed the Grammar report. Refer it.</p>	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
